PROFESSIONAL SUMMARY

Freelance Video Editor with 3+ years of hands-on experience creating short-form and long-form video content for social media and digital platforms, with strong Motion Graphics capability in Adobe After Effects. Works beyond the raw footage — analyzing client needs and existing content to identify what can be improved, and contributing creative input during ideation and production. Brings a multidisciplinary, AI-driven approach to problem-solving, including independently developing a complete After Effects plugin through AI-assisted development. Comfortable collaborating across social media and creative teams to produce content that serves both client and audience.

PROFESSIONAL EXPERIENCE

Freelance Video Editor | Self-Employed, Cairo, Egypt

3+ Years

Video Editing

- Edit short-form and long-form video content for social media and digital platforms, covering footage selection, arrangement, pacing, and timing.
- Improve scenes and visual flow through transitions, effects, and visual enhancement techniques focused on visual storytelling.
- Adapt editing style to current trends to keep output current and engaging for each platform rather than outdated.
- Continuously follow editing and social media trends and incorporate relevant techniques into client work where appropriate.

Motion Graphics

- Create motion graphics and animated elements in Adobe After Effects that support a video's message and visual identity.
- Treat motion graphics as a core part of the editing skill set rather than a separate discipline.

Client Understanding & Creative Input

- Analyze client needs and existing content to identify weaknesses and opportunities for improvement before editing begins.
- Assess how the target audience is likely to respond and how the final video can better serve the client's objective.
- Contribute content ideas, video concepts, and visual approaches to Content Creators and Social Media teams — supporting their role rather than replacing it.

Production Support

- Provide input during production, including shot and framing suggestions and feedback to videographers on footage suited to the final edit.
- Contribute across the workflow, from the idea/script stage through production guidance to post-production, without acting as camera operator or videographer.

Team Collaboration

- Communicate and collaborate with a complete social media / creative team, discussing ideas and aligning on content that benefits both client and company.

CORE PROFESSIONAL EXPERTISE

- Video Editing — short-form and long-form content, pacing, transitions, visual storytelling
- Motion Graphics — Adobe After Effects
- Client & Content Analysis — identifying weaknesses and improvement opportunities in existing content
- Creative Ideation & Concept Development — content and video ideas for creative teams
- Cross-Functional Creative Collaboration — social media and production teams

AI & CREATIVE TECHNOLOGY

AI is a core part of how Hazem learns and works, used extensively across the creative workflow for learning, research, problem-solving, creative experimentation, technical troubleshooting, and workflow improvement. This AI-driven approach extends into practical development work — see Selected Projects below.

SELECTED PROJECTS

Adobe After Effects Plugin — AI-Assisted Development

- Independently developed a complete Adobe After Effects plugin using AI-assisted development, applying AI tools throughout the design, problem-solving, and build process.

CROSS-DISCIPLINARY KNOWLEDGE

Beyond core Video Editing and Motion Graphics expertise, Hazem maintains a multidisciplinary mindset — exploring adjacent fields to a foundational or supporting level rather than as areas of professional specialization. This broad exposure supports a better understanding of the bigger picture, stronger communication with different teams, sharper client understanding, more informed creative ideas, and faster adoption of new tools and technologies.

Content Strategy: General understanding of the field; supports Content Creators with ideas, without owning the full strategy.

Sales & Marketing: Foundational knowledge and interest that supports understanding of clients, audiences, and business objectives.

Graphic Design: Foundational knowledge that supports motion graphics and visual work.

Automation: Foundational knowledge and interest.

Programming & Software Development: Basic / foundational knowledge, applied practically through AI-assisted creative technology work.

SOFTWARE & TOOLS

Editing: Adobe Premiere Pro

Motion Graphics: Adobe After Effects

Short-Form Editing: CapCut

Creative Technology: AI-assisted creative and development workflows

EDUCATION

Al Jazeera Higher Institute for Information Systems

Information Systems — Fourth Year (in progress)

Mokattam, Cairo, Egypt

LANGUAGES

Arabic: Native

English: B1+ / B2

LEARNING & DEVELOPMENT

- Primarily self-taught: skills developed through practical experimentation, real-world freelance client work, and continuous research rather than formal courses.
- Actively studies adjacent fields — content strategy, marketing, sales, graphic design, automation, and programming — to strengthen creative decision-making and cross-team communication.
- No formal courses or certifications currently held; development is driven by hands-on project work and self-learning.
